REPAIR ADVISER SAFETY

Prevent Battery Explosions
• Keep sparks, flames or other heat sources away from 1 ft (30 cm) of battery. Battery gas can explode.
• Never check battery charge by placing a metal object across the posts. Use a voltmeter or hydrometer.
• Do not charge a frozen battery. It may explode. Warm battery to 16°C (60°F).

Prevent Acid Burns
• Sulfuric acid in battery electrolyte is poisonous. It is strong enough to burn skin, irritate eyes, and cause blindness if splashed into eyes.

- Avoid acid burns by:
1. Filling batteries in a well-ventilated area.
2. Wearing eye protection and rubber gloves.
3. Avoiding breathing fumes when electrolyte is added.
4. Avoiding spilling or dripping electrolyte.
5. Use proper jump start procedure.

If you spill acid on yourself:
1. Flush your skin with water.
2. Apply baking soda or lime to help neutralize the acid.
3. Flush your eyes with water for 10 - 15 minutes.

If acid is swallowed:
1. Drink large amounts of water or milk.
2. Do not induce vomiting.
3. Get medical attention immediately.

Wear Protective Clothing
• Wear clean fitting clothing and safety equipment.
• Prolonged exposure to loud noise can cause impairment or loss of hearing. Wear a suitable hearing protection device.

Avoid injury from escaping fluid under pressure by stopping the engine and relieving pressure in the system before disconnecting or loosening hydraulic or other lines.

Avoid injury from escaping fluid under pressure by stopping the engine and relieving pressure in the system before disconnecting or loosening hydraulic or other lines.

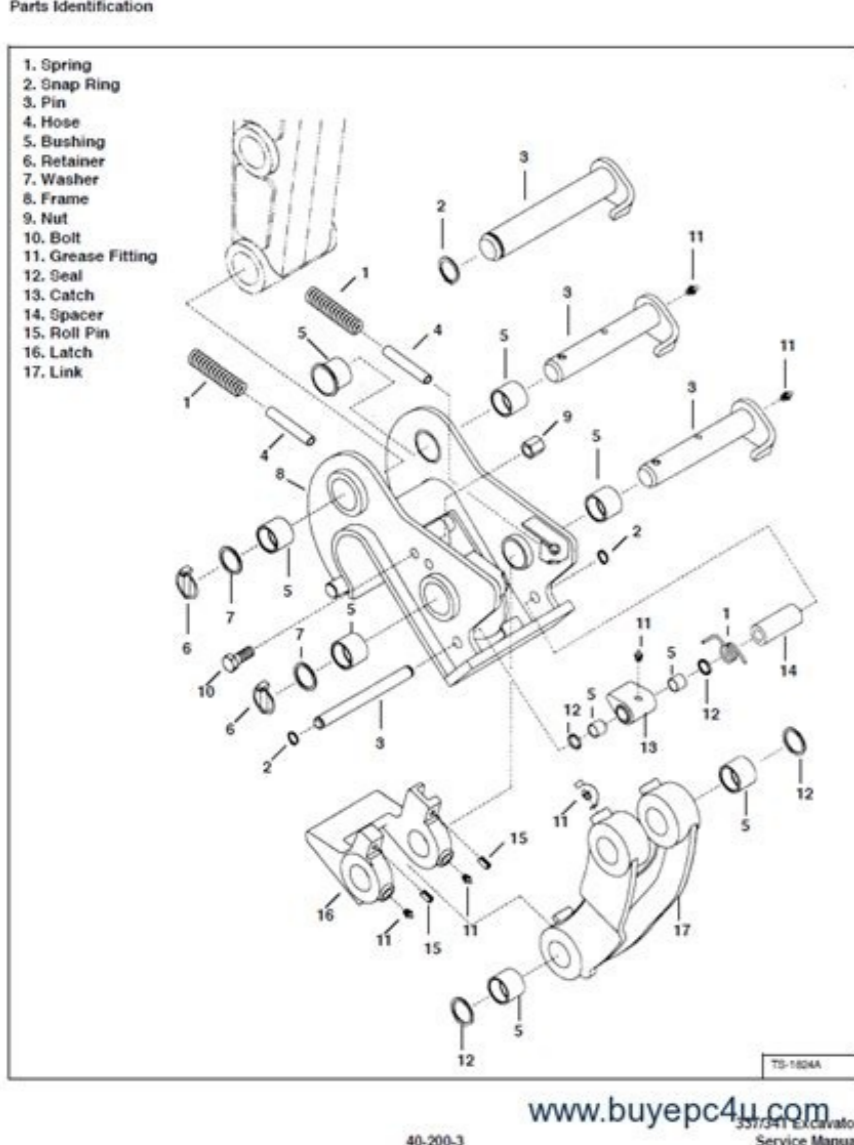

Avoid injury from escaping fluid under pressure by stopping the engine and relieving pressure in the system before disconnecting or loosening hydraulic or other lines.

Flammable spray can be generated by heating over pressurized fluid lines, resulting in severe burns to yourself and bystanders. Do not breathe vapors, smoke, or use a torch near pressurized fluid lines or other flammable materials. Pressurized lines can be accidentally cut when bent past the immediate flange area.

Safety -2
